Bin Temperature Monitoring and Fan Control through the Internet Cloud

www.CheckItNow.us

Day in and day out, we're monitoring and controlling your bins. We do it by helping you get the most from your storage bins-by minimizing temperature and humidity that impact your profitability.

It starts by thoroughly understanding you, your storage. And so, communication is critical to our mutual success. You can expect to be in contact with your bins with a simpler, faster, smarter system.

At the bin site

The only way for RDI to effectively serve your business is to understand it. That's why we make it a point to visit you on your farm and learn about your storage operations firsthand.

Online

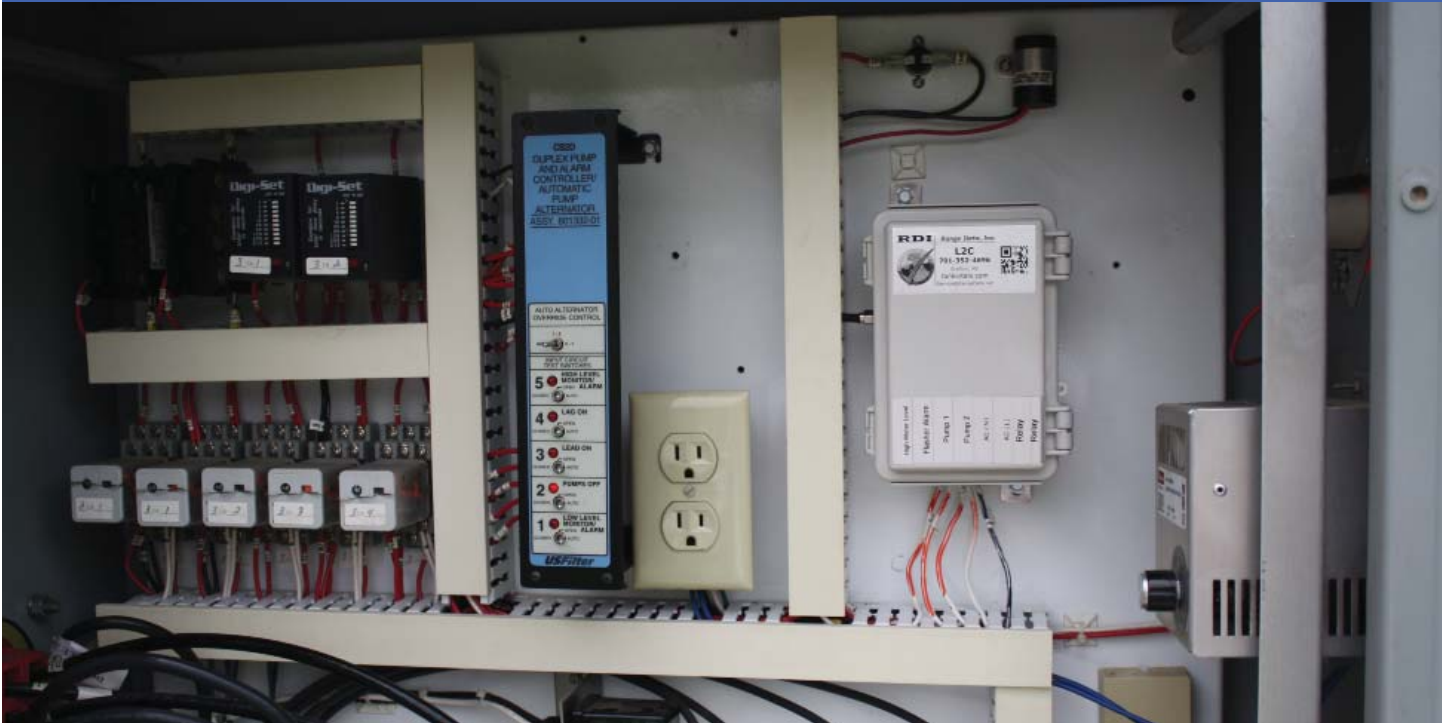

With any Internet access you are able to view and change what is happening with your bins within seconds.

Watching for Hot Spots

See temperature trends in each of your bins eliminating hot spots before they happen.

Tailored to Your Specific Needs

System is designed to meet your unique and individual needs.
